NEW YORK, Sept. 26. (Fxclusive)
A clock that is built into the cabinet of a radio-receiving set and turns it on or off at a fixed time is one of radio's newest wrinkles. It is a development of the Dubtlier laboratory and soon will be on the market.

Like remote-control tuning, which emables one to operate his set from afar, clock tuning, or timing, is designed for the convenience of radio listeners. A special dial on the clock can be set to a certain hour, and the program on a selected wave length will be tuned in automatically at that hour.

Similarly, the bother of turning off the radio set is eliminated. The clock, connected with the set's controls, performs that task. Next, probably, gill appear a clock attachment that can be set at a given station's wave length for one period and at another channel for another period, making it possible for the listener to schedule his evening's radio entertainment in advance, without troubling to manipulate his set each time he wants to shift stations. In other words, he will pick up his evening paper, select the programs on several stations he wants to hear, and leave the rest to the clock device.

transformer or reactive couplings are employed. The only transformer in the entire apparatus is the power and the loud speaker, which is of the ordinary dynamic type.

"Five stages of radio frequency amplification are utilized, together with a detector followed by two stages of audio amplification. The tubes are of entirely new design in accordance with the new principles. The usual tubes cannot be used in the apparatus, nor can my tubes be used in any other radio apparatus."

The most radical departure in the Riggs system is its elimination of the necessity of negative grid bias, heretofore regarded absolutely essential in all amplifier circuits; patent rights on which are tightly held and guarded. The inventor revealed that his system uses a positive bias, accomplishing what has been considered technically impossible. That positive voltages were shown on a voltimeter when applied to each tube in the system, can be attested to by the writer and by the engineers who witnessed the demonstration.

tariff. Of the half-down crats counted for the tariff, he has received the most unreliable, as he finds it very difficult to abandon the tariff beliefs of a lifetime. Now that he has swung into line the regular Republicans are confident that they can hold Trammell of Florida, Ransdell and Broussard of Louisiana, Kendrick of Wyoming, and Dill of Washington. Such a defection on the Democratic side would mean that the Republicans can lose the votes of thirteen interests and still command a ma-

shortly after the Senate assembled, to make direct answer to the President's statement. Borah said at the outset that the flexible tariff was adopted only as temporary expedient to meet post-war uncertainty throughout the world, and that the Senate expected the greatest task of the tariff commission under it would be to recommend reductions in rates as conditions returned to normal. On the contrary, he pointed out, the wast majority of changes recommended and proclaimed have been increases, that the reductions have been on unimportant items. He referred sarcastically to the reduction on bob-white quall, one of the few which has gone into effect in the last seven years.

He attacked the constitutionality of the flexible provision, which he described as "turning over the taxing power of Congress to a commission on the inside of whose chamber the public will seldom be permitted to look." In the last Presidential campaign, he said, neither party dared defend the methods employed by the Tariff Commission, and both promised changes. President Hoover, he might have said, but did not say

QUEBIES ON DUTIES "Does he approve the duty on cement, on pig iron, on other matters which increase the profits of the Steel Corporation? Does he approve the duty on shoes. Is he satisfied with the duties which have been levied on agricultural products. Finally, will he advise us whether he is satisfied that this bill meets the pledges and promises which he made in the last campaign?"

see which he made in the last campaign?"

He urged western Senators to band together on the issue and refuse to turn over any of their powers to a tariff commission, in which the West would have a single vote. He attacked the memberahip of the Tariff Commission, singling out the chairman. Thomas O. Marvin of Massachusetts, as a man incapable of recognizing the needs of agriculture. Marvin, he said, had long been the tariff adviser of eastern industrialists who did not favor tariff protection for agriculture.

When Reed did get the floor it was to denounce Borah's plea as one of downright selfishness. Referring to Borah's appeal to westerners to stick together, Reed said this was an attempt to take advantage of the disproportionate representation in the Senate, where 430,000 persons in Idaho are as powerful as 11,000,000 in New York.

TURE TRUST **CLEMENCEAU MAY MOVE** HARGE KILLED TO DODGE RUBBERNECKS

PARIS, Sept. 28. (Exclusive)—
Georges Clemenceau, aged war-time
Premier of France, at present is
seriously considering giving up his
famous cottage on the seacoast at
Brittany which has served as his
retreat for years.

The roason for such action is the
fact that rubberneck wagons running between the popular seaside
resorts of Les Sables d'Olonne and
La Rochelle now are including the
Tiger's cottage among the attractions—in fact up and coming sightseeing companies have begun to advertise M. Clemenceau's home as a
special feature of the voyage.

To make matters worse a progressive tavern-keeper has just opened
up a bar called the "Cafe de
l'Ocean," a few yards away from the
cottage and is doing a thriving
business among the curiosity-seekers
who gather there in the hopes of
getting a peek at the crusty policy
cal veteran.

It is learned that the daily arrival of a half-dozen sightseeing
cars filled with inquisitive tourists
is making life unbearable for M.
Clemenceau, who practically has decided to give up the old home if he
does not succeed in persuading the
tourist companies to divert their
traffic. RK, Sept. 28. (#)—Fed-Thacher today dismissed is in which leading mo-producers and dis-heluding paramount, Fox, dwn-Mayer and First were charged by the gov-th conspiracy in restraint

BERLIN, Sept. 26. (Exclusive)siderable concern is being maniested by the German motion-picture industry over the agreement approved by the French govern "The decision of Judge Thacher is of great importance to business men and credit associations.

"In 1928. a typical year, there were 4612 theaters transferred out of approximately 25,000 motion-picture theaters in the United States. Nearly every transfer involved uncompleted contracts between the seller of the theater and some of the distributors of pictures."

He said the aggregate involved in such uncompleted contracts was nearly \$10,000,000 in 1928 and the losses to distributors amounted to more than \$4,000,000. importation of American films eventually will be discarded. Leadfilm industry foresee that Germany may follow the lead taken by Prance in admitting that the quota system has failed to bring the results originally expected of it. Evidence that the system has not proved satisfactory here is found in the numerous changes made in it over a period of the last few years. There has been a growing recognition on the part of the German film industry that only normal and unrestricted development of the industry along sound lines can overcome the difficulties encountered at the present time. osses to distributors amounted to nore than \$4,000,000. The distributors named defendants

dustry along sound lines can overcome the difficulties encountered at the present time.

BLAME DIE HARDS
The chief obstacle to the immediate removal of the artificial restriction of the film trade in Germany seems to be the "die hard" attitude of the leaders of one or two of the large companies, who by their persistent advocacy of the contingent principle, have committed themselves to the pointied themselves to the onitingent principle, have comment of Heikichi Ogawa, Ministed themselves to the pointies of the Saliways in the late Tanaka Cabinet, who was examined at the Public Procurator's office in connection with various charges of bribery.

were made and also when the government purchased several private lines shortly before the downfall of the Tanaka ministry.

The Diet probably will be dissolved in December, necessitating a general election in January. The Selyukal, or Conservative party, thus far had been felt to have a good chance to retain its present majority in the House of Representatives, but a definite government victory now is thought to be likely as an outgrowth of the scandal. The system is said to have restricted the growth of the German film market to such an extent as to offer no inducement for the investment of foreign capital.

In contrast with the gloom prevalent in the "die hards" camp, the newer element in the German film industry expresses its satisfaction with the conclusion of the Franco-American accord. Members of this group foresee that it will be a material help to them in carrying forward their campaign for the abolition of the quota system in Germanny.

notice that an appeal will be made, asked for time to examine the trial transcript.

When arrested in Denver, Colo., a few days after the murder, the youth was in possession of Martin's car.

After the identity of the car had been established by the Denver police they reported that Burrows had confessed killing Martin. In Arizona, Martin had been missing from his home two weeks. By telephoned directions from Burrows, Arizona officers found Martin's body in a dry irrigation ditch thirty-five miles north of Pheenix. It was buried partly, the head had been battered and a wound found in it which was established as that of a builet.

BURROWS' STORY

During the trial the Chicago youth testified that he had stolen rides on freight trains from California to Arizona, where he was given a lift by the Mesa salesman near Wickenburg. He put up a defense of "involuntary intoxication," declaring that Martin' forced him to drink. He testified that, after they had stopped to rest, he found himself with Martin's smoking revolver in his hand, and the salesman slumped at his feet. Burrows declared he did not remember shooting the man.

The State contended the murder had been motivated by Burrows's desire to rob Martin of his funds and car to return to Illinois, where he had run away from his home. One State's witness, a gasoline service station attendant, testified that where the salesman attendant, testified that where the prosent contracts, provided the contractors agree to a rate of compensation which the department has been advised to have their representatives of the compensation which the department has done to return to Illinois, where he had run away from his home. Branch System Attacked and Defended

SAN PRANCISCO. Sept. 26. (Exclusive)-Preparing for what some speakers described as a "battle for

speakers described as a "battle for existence," State bank supervisors today devoted the second session of their annual convention to a discussion of steps to be taken to protect the State banks from Federal legislation designed to advance the national bank system.

"If unfair and inequitable laws are introduced attempting to give an undue advantage to the national banks," declared G. G. Shull, Oklahoma bank commissioner. "It would be the right and duty of those interested in State banks of this country to defeat such legislation. As representatives of the State Bankers of America, we should demand that no unfair legislation be enacted which will be detrimental to the best interests of either system of banking."

Shull pleaded, however, against antagonism between the two systems, saying:

"There are in round numbers." cation of the Southern Pacific to be permitted to charge less for a long haul than for a short haul. Under the fourth section of the Transportation Act, under the proposed plan, rates would be less between principal Pacific Coast ports than between intermediate points.

W. P. Ellis, representing the Western Oregon Traffic Association, contended in behalf of several of the intermediate cities that the railroad should not be permitted to reduce rates because that would discriminate against cities he represented. Among these cities are Salem, Albany, Junction City, Eugene and Medford.

Ellis declared also that rates charged valley points south of Portland have never been approved by the commission.

Allen P. Matthew, representing the Pacific Steamship Company, argued against reduced rates, declaring lower water rates are necessary for boats to obtain their share of traffic.

antagonism between the two systems, saying:
"There are in round numbers about 27,000 banks in the United States, of which about 19,000 are State institutions and 2000 national institutions. The capital investment in the State banks exceeds that in the national banks from 50 to 55 per cent and the deposits in the State institutions are more than 50 per cent greater than in the national banks. It can not be contended that favorable legislation is responsible for this."

The latter are Arthur Fletcher, who has been one of the advisers, and coaches under Huggins for two years, the other his life-long friend and perhaps his closest confidants. Charlis o'Leary. The others who will act as pall bearers are Babe Ruth, Lou Gherig, Earl Combs. Tony Lazzeri, Bob Shawkey and Herb Pennock.

When the services are over the body will be taken to the Pennocylvania station and there piaced aboard a private car attached to the Cincinnati - bound train, where DEFENDED BY WOOD

"The best policy would be straight forward branch banking in form as well as in fact. Of all other forms proposed the least objectionable, although much inferior, would be the holding company. Unfortunately no constitutional method of bringing under the control of the bank supervisor of any State a holding company incorporated in that State has been suggested. The same appears to be true regarding the control of the Comptroller of the Currency over holding companies owning stock of national banks. Therein is the real danger."

Will C. Wood, California Bank Superintendent, stated no member of the convention has yet said a word that could be construed as an attack on branch banking.

"Mr. Lipman in his address yesterday," Wood said, "declared hranch banking in California still is an experiment and still has to make its way. We know well out here that

banking in California still is an experiment and still has to make its way. We know well out here that Mr. Lipman always has been opposed to branch banking. Branch banking in California, however, is approved by legislative enactment and is an established system. People here would disapprove strongly of any restriction on the State banking system."

Bank Supervisor Bristow of Virginia stated that in his opinion branch banking should be left to the decision of the separate States. He said the system has been established in Virginia for more than 100 years and is a success.

"If Congress permits nation-wide branch banking," he declared, "it would make it hard for the State banks and might run them out of business."

Bristow's resolution for State's rights on branch banking was referred to the committee on legisla-

tion.

A. J. Veigel, president of the association, said:

"There is a big fight on the horison on the proposal for nation-wide branch banking. We do not want to start it, but we want to be ready for it."

Plans to Accept Place as Water Project Manager if **Bond Issue Passes**

SACRAMENTO, Sept. 26. (Exclusive)—Clyde L. Seavey, a member of the State Railroad Commission today notified the directors of the Sacramento Municipal Utility Dis-trict he will accept their offer to become manager of the Silver Creek water project, provided the \$11,800,-

water project, provided the \$11,000,-000 bond issue is approved at the October 10, election. He told the directors he would resign his present post, which he has held for more than six years, immediately, if the bond election is successful.

Seavey was formerly a member of the State Board of Control and was city manager of Sacramento when appointed to the State Railroad Commission in December, 1922. He will be given complete charge of the development of the project under the district directors' offer.

ACIFIC STATES SAVINGS strides forward in the straight, safe path it has followed for 40 years. Its consistent conservatism, unbroken record of stability, and outstanding strength and liquidity have won, it ever increasing acceptance by prudent people. Today its steady progress has placed it in the foremost place amongst all the building and loan associations in the West.

Pacific States Savings' forward strides are particularly marked in Los Angeles where its present growth is greater than that of any other build-

Our progress in this city has necessitated a re-arrangement of our facilities. This will be accomplished Monday by a consolidation of our Sixth and Grand offices, which we have far outgrown, with our more spacious and accessible office at 752 South Broadway.

The evident preference of both our old and new customers for this more central location has further indicated the advisability of this move.

The floor space of our Broadway office has been enlarged. It is now the largest and most finely appointed office in the Pacific States Savings' system. Here a greatly augmented staff and facilities will enable us to render rapid service to savings and loan customers even in peak periods.

We shall welcome in our Broadway office Monday-our thousands of present customers utilizing our savings and loan facilities—and those who may be interested in learning about our time-tested 6% savings service and advantageous loan facilities for the sound and economical financing of residential and other improved real estate.

\$6,000,000 Bread

Even these critical professional authorities thrilled at the dramatic story behind this unusual bread that cost \$6,000,000 to produce.

They were told how twelve baking experts had spent two years in research and development which resulted in the now famous Wonder Bread recipe.

While inspecting the bakery, they learned that this recipe calls for the finest ingredients that money can buy. They saw the flour which is made only from the most nutritive part of the wheat—the very heart of the wheat berry—milled to strict Wonder Bread requirements. Twice the usual content of pure, sweet milk, every drop of which is pasteurized twice. And then the special method by which every loaf is baked.

Slo-baking

Every loaf of Wonder Bread is thoroughly and carefully baked by a method known as slobaking. This means there is no excess moisture to mar the firm texture. Each cell is

baked to perfection and thus Wonder Bread is remarkably easy to digest. That's another reason why it is recommended for children.

Here is bread baked into a loaf that has proved itself most convenient for slicing. The slices fit the toaster better, make daintier sandwiches, and there are more slices to the loaf. The very hours of the schedule upon which Wonder Bread is mixed and baked have been timed to insure oven-fresh bread delivered to your grocer morning and afternoon.

THIS SEASON WHICH SPONSORS A RETURN OF LONG GLOVES FOR EVENING AND MAKES MORE IMPORTANT THAN BEFORE CORRECT GLOVES FOR EVERY OCCASION, PLACES MORE STRINGENT REQUIREMENTS UPON FINE QUALITY AND CAREFUL WORKMANSHIP.

J. W. Robinson Co. have assembled the new gloves in a great variety of styles and colors and present them from Trefo of France. Trefousse Gloves are sold exclusively by J. W. Robinson Co. in Los Angeles.

Gloves For Evening Wear

THE most important news about Gloves is that they are now being worn with Evening Gowns. The long suede Gloves from Trefousse are of very soft fine selected skins, delightful to wear, flattering to the hand and arm. They are to be worn wrinkled down below the elbow just above the wrist. The colors are delicate egg-shell and flesh. The faintly pinkish tone to match face powder and complexion is chosen by many women. It is also chic to wear the sunburn shade to match a tanned skin, especially with white. White Glace Kid Gloves are equally smart with a white gown.

Many women will prefer the Mousquetaire glove in 20-button length and other favor the shorter 8 and 16-button glove. Pull-on Gloves of suede which do not button are also correct. Priced at \$6.00 for the 8-button length and \$8.50 and \$9.00 for the 16 and 20-button style. Gold kid Gloves, sponsored by Chanel, smart to wear with the metal brocaded gown or all black or white gown are priced at \$35. (Illustrated left.)

A new conceit—Black Chantilly Lace Gloves (illustrated at the left) are original models from Suzanne Talbot, France. \$65.

Gloves For Afternoon Wear

NTHE afternoon mode, gloves show the influence of the new femininity. A number of styles of Trefousse Gloves show dainty "dressmaker" touches. A Glace kid glove with a bowlant of Point Beauvais embroidery in dainty colors may be worn with a light colored frock with graceful feminine details, illustrated at left, \$8.50. Lea Gritos de una Muchacha Infunden Miedo a un Ledrón

Dorothy Hynes, muchacha de 18 años, que habita en la calle Veintinueve Oeste. 1561, se asustó tanto al despertar en su alcoba y ver que un ladrón se acercaba a las camas de ella y de su hermanita más joven, que rompió a gritar con todas sus fuerzas.

"Me amenasó con matarme si gritaba yo", relata la joven; "pero, imposible de reprimir mis voces. Orias, y saltar por la ventana, fue todo uno para el bandido."

Dice Dorothy que el intruso es un joven de estatura media, y que llevaba pantalones de montar.

Feminine invasion of the business
world has progressed so far here
that even hold-up men, the kind

What with a woman staging a

El Sudpacifice Solicita Permiso para Reducir sus Fletes

WASHINGTON, Septiembre 28.—
El Perrocarril del Sudpacifico alego hoy ante la Comisión del Comercio entre Estados que debe autorizarsele para bajar sus cuotas de flete entre ciertos puntos de la costa del Pacifico, con el fin de hacer frente a la competencia de los transportes por agua.

Lo curioso del caso es que el Sudpacifico pide se le permita cobrar menos por un recorrido largo que por un corto, lo que dará por resultado que habrá que pagar menos flete entre dos puertos principales de la costa del Pacifico, que por un corto, lo que dará por resultado que habrá que pagar menos flete entre dos puertos principales de la costa del Pacifico, que entre dos puntos intermedios. El motivo, ya se entiende, es que entre los puertos existe la competencia del transporte marítimo.

SPEEDING YOUTH

Salt Lake Tribune, Sept. 28.

It is against the law for boys and girls under the age of 18 years to drive automobiles. This is the unalterable fact at this particular moment and discussions of competence have no bearing. Neverthekts, the highways and byways are dotted with youthful drivers, many of whom are violating the laws for themselves and their parents, notwithstanding the fact that they may be better drivers than their elders.

The chances are, moreover, that the Standard Oil Company will be the largest producer in the Kettleman Hills. The company owns in fee about one-half of the field as roughly outlined at this time, or about 33,000 acres. Under the abutdown agreement the company is allowed to complete only two of the fifteen wells in process of drilling, one of which has already been brought in from the shallow sone at about 1000 barrels daily and 20,000,000 cubic feet of gas.

Providing a market for its prospective natural gas production conforms to the known policy of the Standard Oil Company with respect to the wastage of natural gas. This company has been one of the leaders in supporting the new State gas wastage act, which demands that operators must put the gas flow from wells to efficient use, or shut in their wells.

WHY does the turning point in health, in average life, occur at What preventive measures can be taken to postpone physical breakdown at the time man should be in his prime?

Medical science in its study of after 40 ailments, has turned its attention to the kidneys. Overwhelming authority agrees that:

Over half of men and women past 40 show evidence of kidney ailment in some form, many without knowledge of it. That kidneys, contrary to popular opinion, excrete 75% of poisonous waste from the system. Delicate kidney cells thus become overworked; and wear and tear begins to show at 40. Congestion occurs, adding further to the burden. Poisons which should be eliminated, are har-

Delorey testified that he has lived in Los Angeles forty-four years, has been a commissioner eight years, been a commissioner eight years, been a commissioner eight years, and cilman. He stated that in regard to the so-called "extras" in the West Adams storm-drain affair, he had no supervision and no knowledge except that furnished by the City Engineer, he being busy with matters in his own department at the time. He had nothing to do with two street-paving projects listed in the Mayor's charges, except to vote with the other commissioners.

in the Venice canal job he favored readvertising after the City Attorney ruled the low bidder did not follow the specifications. In regard to the Third and Harperstreet job, he said he voted with the other members to award the contract because Councilman Martin, with others, wished the improvement hurried. THE PANTAGES VERDICT
The verdict of guilty of manslaughter found against Mrs. Lois Pantages is not only a vindication of the
integrity of the courts, but a rebuke to
reckless and irresponsible slander, now
shown to be utterly baseless. Once
again it is proved that serious charges
against public officials and persons in
responsible positions ought not to be
made save upon clear and convincing
evidence, and that inference and suspiction do not suffice, since they may

picion do not suffice, since they may readily be mistaken.

On charges of publicly casting such aspersions on the conduct of the Pan-tages case as to tend to obstruct the On charges of publicly casting such aspersions on the conduct of the Pantages case as to tend to obstruct the cause of justice, Rev. G. A. Briegleb and Rev. R. P. Shuler have been cited to show cause why they should not be punished for contempt of court. Like Mfs. Pantages or any other defendant, they are entitled to the presumption of innocence until their guilt is proved, and there is no intention of prejudging them here. But whether or not they are guilty of contempt of court is a separate question from whether they abused the right of free speech by talking loosely and making, directly and by inference, charges now shown to have had no justification in fact. This offense is made more serious because their words were given weight by the respect commonly accorded the cloth. What might be condoned in a layman swaying, at most, a small circle, is a different matter when uttered from the pulpit by a minister of the gospel, especially one who has a possible radio audience of millions. It is somewhat as though a newspape: should publish, without investigation, any of the thousands of wild rumors, suspicions and pieces of inspired gossip that drift in to it.

The task of securing honest, unprejudiced and sole men and women to serve on juries, especially in important and largely publicized cases, is constantly becoming more difficult. Certainly these difficulties should not be unnecessarily increased by permitting public currency to be given to unfounded suspicions reflecting on the integrity of ju we satisfactory to the prosecution, the defense and the court, who have the best opportunity to judge of their fitness.

The average juror serves as a matter of public duty and usually at very serious inconvenience to himself. There seems to be no good reason why, in addition to his other sacrifices, he should he mubility held up to the mention of the surficency.

orruption where there is no foundation for such a suspicion.

Where there are proper grounds to challenge the honesty of purpose of a juror or of an officer of the court there are also proper and orderly channels through which such challenge may be made. If, upon adequate investigation in the through which such challenge may be made. through which such challenge may be made. If, upon adequate investigation by the proper authorities, the suspicion is found to be well grounded, opportunity is then afforded to apply the remedy. The hasty broadcasting of baseless gossip and suspicion not only fails to serve any good purpose, but is calculated seriously to interfere with trustices.

justice.

The conviction of Mrs. Pantages should make the public highways measurably safer by demonstrating that those who choose to operate motor vehicles when not in full possession of their faculties run a serious risk of punishment in addition to the personal danger of accident. It also demonstrates there is little truth in the frequently heard assertion that wealth will necesthere is little truth in the frequently heard assertion that wealth will necessarily sway any legal proceeding to its advantage. There could hardly have been a greater contrast in worldly position than this case presented; it was between the wife of a multimillionaire and a humble Japanese gardener, yet they were held equal before the law.

It is also something of a vindication for the jury system. The women jurors who wept out of sympathy for the de-

who wept out of sympathy for the de-fendant nevertheless had voted upon the evidence as they saw it in accordance with what they believed to be justice, and they accepted the consequences of their severity as necessary

proper.
All told, the community has occasion to congratulate itself upon the outcome, even upon its discovery that some of its self-appointed advisers are not thoroughly trustworthy. The latter discovery was one that needed to be made.

A JORE SEX SUGGESTION MORE SEX SUGGENTION

The Reform League conference seems to have been a symposium upon domestic relations. One doctor argued eagerly over the qualifications of husbands. No nutty male should be permitted to wed and insanity should be recognized as grounds for divorce. The idea that a woman should remain linked to a husband in the madhouse was preposterous, according to his way was preposterous, according to his way

But if crazy folks are not allowed to wed it might cut down the marriages to quite an extent. Some people say that love is a form of insanity, anyway. It isn't every bridegroom that can show a certificate of mental competency.

One of the lady delegates was in favor of easy and frequent divorce. To chain a woman to a man for life is to put bondage and despair upon the throne and to crucify freedom and hapshould depend only upon the wishes of those directly concerned. In all the acts of a man's life his marriage is of the least concern to others, yet it is the adventure most muddled with by out-

It was so lovely that when Madelon came in to say dinner was ready she came on say dinner was ready she came in to say dinner was ready she came on tiptoe and whispered, even though the piece de resistance was leg o' lamb and the plates were hot, and you know how exciting that always is to the housewife. Should Work Both Ways

LOS ANGELES, Sept. 22.—[To the Editor of The Times:] On the stand taken by Rev. William S. Blackshear of the Protestant Episcopal Church at Brooklyn. N. Y., relative to the exclusion of all nonwhite attendants. I wish to make brief comment. It is reported that this pastors and that everyone hould follow his contrary received their religious education from white instructors, and its illogical and inconsistent for us to accept a brand of religion. But a vital principle has been introduced by this white minister, which should arrest the attention of all concerned.

The majority of the black people living in this country received their religious education from white instructors, and its illogical and inconsistent for us to accept a brand of religion that scorns our presence on earth—but promises us admittance in heaven after death. Our contention or conviction is, that if we are unworthy of association here, then we should be permitted to teach ourselves at home and abroad a religion that has no social handleaps or discriminations.

made here. I was examining two of them out at my farm this morning."

But Ireland, unless I am mistaken, has never gone dry. There are even open saloons in Ireland, the very sort of saloons the return of which to this country Mr. Ford tells us would make him give up manufacturing here. And now he tells us that these Irishmen, drinking what they please, make better tractors than do American workers and do the job as cheaply.

In this same connection it would be interesting to hear Mr. Ford explain why, if he so greatly fears the effect of liquor on his workers, he is opening factories in England, France, Germany and Spain—all "wet" countries.

L. REY, Sept. 24—[To the of The Times:] The fire of the statement of

columns the statement of Mr. Henry Ford that if "booze" ever comes back to the United States he is through with manufacturing; that he would not be bothered with the problem of handling large groups of men and trying to pay them wages which the saloon would take away from them.

This afternoon, by a curious coincidence, while looking over a copy of Forbes Magazine I came across an article in which the editor of that publication quotes Mr. Ford as saying to him recently: "As you know, we have arranged to build all forms to depend on the court advance in formation for the determination."

or children; but not as to whether divorce or separate maintenance should be granted. These questionnaires would not be suitable for use in trials of a general character.

In the English, railroad commission and domestic relations procedure referred to the feature of greatest value is that of acquainting the trial tribunal and counsel with the facts in advance of trial or hearings.

All familiar with the subject have long realized that if court and counsel knew the facts before the trial the testimony of value could be presented in a fraction of the time now consumed. Some lawyers consulted have said that, using such a plan as that proposed, half of the cases would be settled without trial, due to the exchange of information; and that the half remaining could be tried in half the time now required. It is also possible that cases appearing from the affidavits to be without merit could be disposed of by suitable motion, if not settled voluntarily.

Increasing the number of courts will not meet the situation. We cannot expect courts and judges to be multiplied indefinitely to meet the increasing volume of litigation. The courts and the profession must provide a simpler and shorter method of handling litigation.

ing volume of litigation. The courts and the profession must provide a simpler and shorter method of handling litigation. If lawyers can be aided in working out settlements without trials, and lawyers and business men and women, as parties, witnesses and jurors, be saved many days of time waiting for trials, and during trials, and utilize far more of their time in their offices, preparing for trials at their convenience, a great financial saving to all will result. sult.

hand proved valuable yesterday when Traffic Officer Albert Craw-

ford, stationed at Seventh and San Pedro streets, was called on to bulldog a runaway automobile.

He was on duty sorting out a traffic tangle when he noticed a feminine driver having some difficulty. As he gave the signal to "go" the woman started her car, the motor stalled and she became confused as other motorists began squawking their horns at her.

A slight incline at that point increased her difficulty and the car started to roll. She jumped out, leaving the ignition switch on and the car in gear.

An instant later the car lunged crazily and headed straight for the policeman. Thereupon, quickly sizing up the situation, Crawford side-stepped and made a leap for the running board. He missed it Hetried again and again the car lunged convulsively, this time knocking the policeman to the pavement. He was run over and his left arm severely injured, but he scrambled to his feet and resumed the struggie.

Meanwhile the woman, Mrs. Grant Gillespie, 1616 East Thirty-ninth street, had recovered her self-possession and she also took a hand. As the officer made a flying leap for the careening car, she did likewise. Crawford grabbed the steering wheel and applied the brakes ing scores of persons who had witnessed the battle cheered.

The officer was treated by Dr. Carey at Georgia-street Receiving Hospital. Mrs. Gillespie was not in-

SENTIAL TO SCHOOL CHILD

As we write the above head we feel that everything which can be said on the subject of the necessity for a good, hearty breakfast for the achool child has been said over and over again. We would feel discouraged at trying to think up something "new" on the subject if it were not for the fairly obvious fact that there are still large numbers of children who are sent off to school with a cup of coffee and a hunk, for we can't call it a piece, of soggy, half-toasted bread.

It is all well enough for the adult to remark with pride that ahe never touches a thing for breakfast, or that a strip of thin toast and a half glass of orange juice are the most that she can manage in the morning, for the adult has her reasons for refusing breakfast and they are sufficient to prevent her eating a hearty breakfast. The school child has none worth voicing.

#### Household Suggestions

Easily Filled
Use a pitcher in which to mix the gelatine and water. Then, if the molds are small it is an easy matter to pour the gelatine liquid into them without waste.

Handle Gently
Lift the fruit or vegetables out the basket; don't dump them. Then when you are preparing m for canning you will not come oss bruised fruit or vegetables.

Use three tablespoonfuls of lemon juice when a recipe calls for the juice of a lemon. This is safer than counting the lemons as this fruit varies greatly in the amount of juice to each lemon.

Nipples for Baby's Bottle

Perfectly even
When blanket-stitching something
you desire particularly even, take
a ruler and dot with a pencil all
around the article at the intervals
that you wish the stitches. Then
your work will be absolutely even.

After Each Meal If a newspaper is crumpled and rubbed over the gas stove top after each meal while the stove is still a bit warm all grease and dirt will wipe off with it and the stove will always look clean and polished.

Board of Education Resists Writ Petition Firmly

Outcome of Genther Case Watched by Colleagues

Salary Sought from Time of His Dismissal

erting he was wrongfully and gally dismissed from service as a other in the commercial depart-ent of the Franklin Junior High ment of the Franklin Junior High School, Highland Park, John Genther went before Superior Judge Yankwich yesterday with a petition for a writ of mandate asking that the Board of Education of Los Angeles be made to reinstate him and pay him back salary from the time of his discharge in September, 1927, to the present. The hearing will last several days.

As a prima facie case of discharge is made from the public records in the action, the burden of proof to show cause why the teacher should not be reinstated in his position is upon the Board of Education.

BITTERLY FOUGHT Represented by Deputy County Counsel Pritchard, the board fought meh by inch all yesterday afternoon over the objections of Attorney Wilsam A. Alderson, counsel for Genther, to prove the contention of the educational body that the plaintiff is not desired at the Franklin Juntor High School because of asserted noompetence and unfitness for service.

isc.

Efforts are being made by the Board of Education to introduce evidence to show Genther was unable to command the respect of the pupils he taught or able to preserve discipline in his department. Another contention is that he was constantly going to the principal of the school with the most trivial matters of disciplining among the pupils, matters, it is asserted, he should have handled himself.

The outcome of the trial is awaited with keen interest by teachers and educational boards all over the State. It is considered a test case which will determine just how far a board of education can go in declaring a teacher thcompetent.

Cited before Judge Scott yesterday on a juvenile petition, Sayder, 40, declared to be a former German war fiver, was sent to the County Jail for contempt of court when he failed to reveal the girl's hiding place or the number of an asserted telephone call he made regarding her welfare.

The asserted kidnaping was revealed when investigators from the office of the City Prosecutor sought Snyder at 125% North Avenue 60, where he had moved after becoming estranged from his wife. Mrs. Snyder subsequently filed petty theft charges against him, asserting he had taken half the household furniture with him when he left on the 17th inst.

According to Victor H. Koenig, who, with Thomas B. Walker is representing Mrs. Snyder the difficulties are the outgrowth of a pending divorce action. Mrs. Snyder yesterday was reported to be under the care of a physician as a result of the girl's disappearance.

The child was found at the home of Mrs. W. Rogers, 614 West Orange attract, Monrovia, according to officers. Snyder, they said, had made arrangements for her to live there.

Those constituting the party who accompanied Snyder included Deputy Sheriffs West and Belle De Wolfe, City Prosecutor Investigators Horne and Clairville and Attorneys Walker, Hanson and Caswell.

the talking pictures last evening. Warner Brothers Downtown Theater, formerly of the Pantages vaudeville circuit, accomplished its debut as the exclusive home of audible films and drew an audience that would more than have done credit to a first-night in Hollywood, famous for its big premieres.

The Warner Theater, which is to be operated in addition to their house in Hollywood, presents new and inviting aspects. The auditorium has been redecorated, and new seats have been installed. The effect achieved is of a pleasant intimacy, which is increased through the excellent sound reproduction and visual projection. The theater, as done over, would seem to provide very ideal conditions for the current form of entertainment. The picture chosen for the opening was a musical-talking version of the Belasco play, "Gold Diggers

Horton Starts Fall Season of Local Rialto

In a colorful pageant of gaisty and satire tonight, chancellors will weave their imperial machinations, rumbling of international war will écho, actors will rehearse and be jailed, royal street brawls will flower into royal romance, kingly ire will rise in crescende and cupid will provoke national crises.

It will all occur on the stage at the Majesti: Theater, but if will have the glamorous glare of footlights, the lavish sets of Danny Hall and the steller acting of an exceptionally strong cast headed by Edward Everett Horton and Kay Hammond to give it a thrilling fantasy of reality.

"The Command Performance," a comedy of royal romance and the stage by C. Stafford Dickens, will have its premiere tonight, launching the fall theatrical season. All indications point to a brilliant first night for the opening of the comedy. The gathering at the Majestic tonight is expected to take form of a welcoming reception for Horton, who wil lconclude a lengthy vacation from the stage in the production,

In designing Bullock's Wilshire, modernistic effects tending to extreme simplicity were aimed at. Beauty in line and design, combined with unusual lighting, achieved a result that hundreds of women yesterday described as "gorgrous." Every section appears to be a small and exclusive shop and only a few examples of the merchandise offered are on display.

Liveried chauffeurs drove up to the entrance, assisted employers to alight and then found what parking space they could. Motor cars lined both sides of Wilahire for several blocks each way, as well as Westmoreland and other cross streets in the vicinity of the store. The atmosphere of the great store and the manner of its visitors was that of a social function. Employees were scrupulously courteous and bore themselves with a dignity befitting their environment and the occasion. Obsequies for Heiress Will be Conducted Here;

Motors of Air Line Chief's Real Joy Figures on Five Days of Campaign Show Drop in Accidents and Casualties

Effectiveness of the police campaign against reckless motorists as a means of cutting down the number of traffic accidents was indicated in figures compiled by Lieut, Lofthouse and Statistician Knoles yesterday at the completion of the first five days of the drive. The figures, while showing a slight increase in fatalities, record an appreciable decrease in the number of accidents and the number of persons injured as compared to the five days immediately preceding.

According to Knoles the total of traffic accidents, as compared number of traffic accidents in the city from the 20th to and including the 25th inst., was 164 as compared to 217 for the five days previous, a decrease of fifty-five. The number of persons injured was 280 during the first period and 211 during the five days the campaign has been under way.

Coroner's office records show that from the 20th to the 25th inst., inclusive six persons died in the county and five in the city as the result reckless speed at intersections.

Heath Having Difficulty Molding Inexperienced Material; May Use Backs on Line

CLAREMONT, Sept. 26.—Line Coach Colvin Heath seems to be up against a tougher proposition than most of the Pomons grid followers realize. Heath's line material is not shaping up as fast as it should. The boys are tough and willing but plenty green and most of them are not acquiring "Beefy's" football lore any too quickly.

Tucker and Clements are show—

Tucker and Clements are show—

Nixon is having a lot of fun didicates at the present writing. Morgan, who has been playing tackle along with Tucker is having difficulty acquitting himself properly, but should in time improve. The weakest spot in the line at present is the running guard job. Right now Heath has Jack Witherspoon, a sophomore, in that spot. Indications are, however, that he will give some one else a chance at that job this afternoon. Curt Imman, the dusky broadjumper, is next in line for the place and deserves a tryout.

After many reports pre and sen, Art Colley, veteran of two football suit last night. Art played backfield in '26 and '27, but Nixon has turned him over to Heath in attempt to belster the weak Sagehen wall. FIGHT BY ROUNDS

Round one: Carefully, with the deepest respect for each other, the big, clean-limbed fellows sparred in the center of the ring. Sharkey growled, buried his head and smashed into Tommy's body with both hands. Loughran grunted a bit and locked up the Boston gob carefully. Tommy bounced over a left hook to the chin, but Sharkey reached him with a long left hook as he dove forward again and bounced his right full on Tommy's chin. To the surprise of all, Sharkey made the fancy Loughran miss with his neat left jab and they bounced together to swap at close quarters. This time Tommy had things under control and he tied up Sharkey as the bell rang.

ROUND TWO

Sharkey's wife lunge went amiss as Tommy speared with a left and pushed him into the ropes. A bit peeved at such treatment, Sharkey dove in with a long right that missed by two feet and Loughran neatly hooked his left to the chin. They fenced in the center trying to make each other lead until Tommy grimly accepted the challenge and rattled three lefts off Sharkey's soowling face. Sharkey drove the dancing master to the ropes with a left hook to the body, bounced his right full on Loughran's chin and banged home two lefts to the head as they came away. Tommy was boxing studiously at the bell.

That's my prediction on the outcome of the Pacific Coast conference football race this year."

It was Mr. Karl Deeds, once a member of a certain "Wonder Team," who pulled a vest over an ample girth in the barber shop of the L.A.A.C. and spoke thusly.

If the wish could be father to the thought Mr. Deeds, of course, would like to see his old mater—the California Bears—will away with the championship.

walk away with the championship.

But Mr. Deeds is well aware of the fact that the situation on the Coast these days is far different than it was back in the days of the California "Wonder Teams." The Bears ruled the roost in no uncertain terms those days.

Today, with a stiffening of competition up and down the line, no team is an odds-on favorite.

Thus does our local collegiate football season get off to a running start.

And from now on until the Trojans meet Carnegie Tech December 14 there will be little "time out."

When the colleges aren't contributing to the gayety of the football fan the high schools will be. We of Southern California have much to be thankful for. Our pigskin season is longer than anybody cloc's in the country.

Even the December 14 game does not see the wind-up. A short respite and then the tune-up for the New Year's Day game is on.

It's the greatest season of the year—and it's the high-pressure season for all concerned.

time Heinecke will be out of active service.

Pop Warner began tapering off work for his squad this afternoon with but one more day left in which to perfect the attack and defense to be used against the club men Saturday.

A long blackboard session and some dummy scrimmage were the only features of this afternoon's practice schedule.

Following is the Stanford team which will start against the Olympians, according to the announcement made today by Warner:

Ends, Capt. Muller and Preston; tackles, Artman and Tandy; guards, Heiser and Driscoll; center, Heinecke (or Taylor;) halves, Frentrup and Rothert; quarter, Fleishhacker; full, Smalling.

Kay and Marcellus Albertson, brothers, who play end and center for Stanford, will not be on the lists Saturday. They flew to Los Angeles this morning for the funeral of their mother, who died yesterday.

warner is conceding himself an even chance of winning from the Olympic Club cutfit and feels he is fairly well prepared for their attack. If Pop can put this game away he should feel optimistic over the outcome of the first conference game against Oregon University slated for the following week-end. Scrimmage has been the head-liner on the practice program down on the farm this week and the players are toughened up considerably more than they were for the West Coast Army game.

One outstanding fault of the Stanford men last Saturday, was the way in which they ran interference. The Stanford guards did not look very effective at protecting the passer. Stanford's running plays won't function against tight Club defense, Pop will have to depend on the "air game."

If Stanford's line can hold up against the strong club line the Cards should be set for the rest of the season.

He stresses the fact that if Oregon should get by Stanford one week from tomorrow it may win the tittle because neither the Trojans nor the Bears are on the Webfooters' schedule. The northwesterners have a veteran team, and if their reserve strength is up to snuff they may make things very tough for the Cards.

MICKEY WALKER and Ace Hudkins signed articles for a world's the same thanks of the sports.

Just what that title battle will draw even with the colorful Hudkins. The tackles were younged to be the stream of both walker and Hudkins, inclines to believe a \$100,000 gate will be the intake.

The date falls between the Trojan-Stanford game in the north and other expenses by thousands of Angelenos who will want to see the northern game. And there's another "big game" staring them in the face when they return.

And on top of that a \$1 to \$15 top is not attractive to the average local fight fan who has rarely been seduced for more than \$5 for the best seats.

It's an interesting situation to watch.

While Hollingbery was anying that all his team needs is just a couple of first-string tackles and two more good ones in reserve, an additional guard, a quarterback who am quarter, a pair of halfbacks who can do everything, some forward passers and a punter or two, he suddenly switched and began giving fits to coaches who issue "bear stories."

"I almost hate to read the papers, there are so many bear stories in them," said Heilingbery. "Tell the public the truth only, is my motto."

Fighting it out for the running-guard reserve posts are Frank Mitchell, 175, 1933 freshman from Cle Elum High, and Flechsig, 185, a letter man senior, Taking Hansen's place as porticide guard is George Hurley. This is his first year but he is abort, stocky, weighs 190 and is hard to move. Five Home Runs Rapped Out by Husky Athletes

(Continued from Thirteenth Page) going to be a whale of a ball player before he gets through with the national pastime.

By capturing their third straight victory the Angels shoved the Seals back into fifth place and climbed to within three games of the league-leading Stars and Missions. Portland still retains third place, two games behind the leaders.

FIVE HOMERS IN GAME There were five home runs in yesterday's clash, which brings the total of circuit clouts to thirteen for the three games. Wingo and Suhr homed for the Seals, while Sandberg, Webb and Jacobs collected the Cherub four-baggers. Yesterday's game marked the third straight time the Angels have won out in the eighth or ninth inning. It's getting to be a habit with Jack Leliveit's aggregation, which is now playing its best ball of the season, despite none too formidable pitching.

After the Angels had over-come a two-run lead with a sixth-inning rally, the Seals ap-parently cinched the contest in their half of the eighth when Suhr slammed one of Barfoot's offerings over the right-field screen. That made the score 4 to 2.

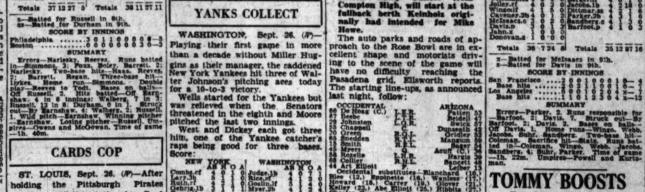

margin to three runs.

Webb got one of those runs back for the Angels in the fourth when he drove one of Davis's offerings far and high over the center-field barrier.

The Angels tied it up in the sixth. With one away Jacobs cracked a home run over the left-field fence and Dittmar followed with a single. Parker's hit to right put Dittmar on third, from where he scored while Davis was tossing out Sandberg. The score:
